WORK HISTORY

Software Engineer Student Tutor

Kenzie Academy - Indianapolis, IN

07/2020 - Current

- Architected new features and led the development team through example
- Managed a small team of student engineers to build and enhance features in React
- Built an awesome React Developer Ecommerce's website (w/ Redux, Hooks, GraphQL) from the ground up! Check it out on my GitHub-link
- Assisted new student engineers understand React/Redux, engineering best practices, and product knowledge.
- Enforced best practices through code review and pair programming
- Reviewed students projects for compliance with specifications and quality standards.
- Established virtual teams to develop trust and extreme programming with my classmates.
- Evaluated project requirements and specifications and developed software applications that surpassed instructors expectations using Firebase, MongoDB and Mongoose.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Senior Software Engineering Capstone Design Project (DocSpot) Check it out on my GitHub-Link): *Project Scope*: I rollout of an app for healthcare professionals starting their own practice and offering a variety of services. *Tools*: React-Redux, SCSS, Visual Studio and Firebase.

Supervisor

American Income Life - Arli, TX

05/2019 - 04/2020

- Sought out new clients and developed client relationships through networking, direct referrals and lead databases.
- Adjusted job assignments and schedules to keep pace with dynamic business needs, factoring in processes, employee knowledge and customer demands.

Project Manager

American Airlines - Fort Worth, TX

03/2017 - 01/2020

- Identified, reviewed and applied policies and procedures by exercising informed judgment to achieve optimal performance.
- Orchestrated projects within strict timeframes and budget constraints by solving complex problems and working closely with senior leaders.
